

V-Rooms™ Announces Charter Partnership with EnterConnect on SOAAPPS.com SaaS Marketplace

ATLANTA, GA – October 3, 2007. **V-Rooms™** goes global, delivering secure and auditable virtual data rooms through a Charter Partnership with SOAAPPS.com, the new global Software-as-a-Service (SaaS) marketplace. SOAAPPS launched in the U.S. at BEAWorld San Francisco in September and launched in EMEA at BEAWorld Barcelona in October. EnterConnect Inc, veteran provider of enterprise portals, and BEA Systems, the leading enterprise infrastructure software company, launched SOAAPPS to bring together mid-market business executives seeking SaaS solutions and Independent Software Vendors (ISVs) delivering SaaS solutions.

“For years, **V-Rooms™** has been empowering high-profile customers to effectively store, share, track and audit highly sensitive documents – improving collaboration and compliance,” said Dan Bradbary, CEO of Due Diligence Online, LLC, parent company of **V-Rooms™**. “We see this partnership as an extension of our solution into a market that has yet to realize the full benefits of using virtual data room technology to improve the corporate communication cycle.”

“V-Rooms™ was offered the Charter Partner opportunity because of our own success with the solution,” said Sam Jankovich, Chief Executive Officer of EnterConnect, Inc. “V-Rooms™ Virtual Data Rooms can be easily deployed in minutes and are even easier to use. For our last round of fund-raising, we deployed a V-Room for Investors. We not only saved on printing costs leveraging V-Rooms™, but we were also able to better gauge investor interest by monitoring the internal user audit reports, which track who accessed what documents and when. We believe mid-market human resources, sales, marketing, legal, finance and information technology executives are seeking cost-effective, secure, easy to deploy, easy to manage web-based document communication alternatives for collaborating with remote employees and team members as well as external consultants, partners and customers and that V-Rooms™ delivers that value quickly.”

V-Rooms™ was initially launched in 2005 as a Virtual Data Room solution primarily geared to the merger and acquisition (M&A) mid-cap market. However, recent application enhancements and new partners, like SOAAPPS.com, have made **V-Rooms™** an effective alternative for corporations seeking a practical solution for managing document communications.

“**V-Rooms™** is a secure and cost-effective solution that can help companies solve the challenge of sensitive document exchange,” according to Karen Thomes, Vice President of Due Diligence Online, LLC. “With **V-Rooms™**, documents can be securely hosted outside a company’s firewall and yet still provide the necessary security, access controls and audit trails needed for corporate compliance and peace-of-mind.”

About V-Rooms™

V-Rooms™, powered by Due Diligence Online, LLC (www.V-Rooms.com), is a full service Virtual Data Room solution using proprietary **V-Rooms™** technology that is focused on the needs of businesses to be able to safely and securely share sensitive and confidential documents online. **V-Rooms™** can also handle all of the administrative details of scanning, uploading and organizing documents, and has facilitated projects with thousands of users and files since early 2005. Corporations interested in the **V-Rooms™** Virtual Data Room solution can visit their storefront at <http://v-rooms.soaapps.com> or call (800) 731-6379.

About SOAAPPS.com

SOAAPPS.com is a new online global marketplace for mid-market line of business executives in sales, marketing, human resources, finance, operations and information technology to find, try, deploy and manage on-demand applications faster while gaining better business results. The mission of SOAAPPS.com is to “Transform Business On-Demand” by moving software applications and productivity online. This mission is being achieved by bringing together an integrated network of Business Customers, ISVs, VARs and SIs – all leveraging the compelling business model of software-as-a-service (SaaS) to achieve more productivity, lower costs and accelerated time-to-value. Partners interested in the Partner Program can get more details via email at soaapps_partners@enterconnect.com.

About EnterConnect, Inc.

EnterConnect, Inc., based in San Jose, CA, capitalized on a rich history of more than 50 Fortune 1000 intranet and extranet deployments to develop a proprietary standards-based portal platform. EnterConnect now delivers ‘business-ready’ portal applications for employee productivity and customer and partner self-service to drive costs down and revenue up. EnterConnect further leverages the ‘business ready’ portal platform in conjunction with BEA

Systems, Inc. infrastructure to power the new SOAAPPS.com global marketplace. The EnterConnect software suite consists of EmployeeConnect, TeamConnect, CustomerConnect and PartnerConnect and is available as a software-as-a-service (SaaS) on SOAAPPS.com. For more information about EnterConnect visit www.enterconnect.com or call (800) 658-2670.
